The Question of the Powers Concerning the Possession of the Philippines is Being Considered.

WASHINGTON, July 25.—The powers have embarrassed McKinley and his advisers by their formal inquiries as to the government's intentions in the matter of the disposal of the Philippines.

The fact that all foreign ambassadors should suddenly cut their summer vacations short in order to reiterate their assurance of distinguished consideration at the White House, is considered most significant.

Saling and a man named Chapman had some trouble over a pool game and Saling threatened to kill Chapman. He procured a pistol and returned with the intention of carrying out his threat. Miller, who had been watching them, went to his cart and getting his shotgun, loaded it, and returning fired through the screen doors of the barroom at Saling. The first shot took effect in the right breast, the second in the lower part of the face. Miller was arrested and brought to Susanville today and placed in jail. Both men are strangers here.

## CUBANS MAKING TROUBLE AT SANTIAGO

Work of Restoring Order Has Been Retarded by Their Course—Spaniards Quietly Accept the Situation.

New York, July 25.—Dispatches to the World from Santiago say: The Cuban insurgents are retarding the work of the military governor in restoring order in the city. They still are disgruntled because the town is not delivered over to them. The Spaniards are accepting the change of government in Santiago with a good grace. Garcia's forces have left the American camp and gone into the interior. They have been warned, under threat of extreme penalty, not to molest Spanish residents or return to the old system of brigandage.

## ONE VESSEL SUNK, ANOTHER DAMAGED

Steamer Edward Smith No. 2 Runs Into the Schooner Aurora and is Dashed Into the Sunken Lake Steamer St. Clair With Such Force as to Sink the Smith.

DETROIT, July 25.—The steamer Edward Smith No. 2 was run into the sunken lake steamer St. Clair near the flats by the schooner Aurora, in tow of the Aurora. The steamer Smith was bound up to load and without a consort, while the Aurora and Aurania were bound down. Another large propeller was also bound down near the town, and it is supposed the man in charge of the Smith got the propeller and the tow mixed in his mind, and in dodging the propeller dashed into the Aurora, which was making in the neighborhood of seventeen miles an hour.

The force of the blow sent the Smith over to the west side of the channel and sank her. The Aurora was badly damaged about the bow. The crew and a pleasure party on board the Smith were rescued without accident and sent to the Old Club.

The Smith is owned by John Smith, of Cleveland, and valued at \$65,000. The Aurania is the property of Corrigan, of Cleveland, and valued at \$150,000.

Details are very meager none of the crew having arrived here yet.

Twenty thousand idle men crowd Dawson without work until winter comes again and opens the mines once more.

Stringer, an Anglican missionary engaged among the Esquimaux, writes to a friend here stating that of the eleven whaling ships that left the Arctic for the West last fall, only three managed to get out. ## AMERICAN SILVER IS DISCOUNTED

Telegram Has Been Received From General Shafter Requesting that Gold and Paper Money Alone Be Sent to Santiago.

WASHINGTON, July 25.—Major Smith, accompanied by three paymasters, will leave New York tomorrow for Santiago, to pay Shafter's army, and then proceed to Porto Rico to pay Miles' forces.

A telegram has been received from Shafter requesting that gold and paper be sent to Santiago, as tradesmen refuse to accept American silver dollars at par value, and rate them at fifty cents on the dollar. Considerable indignation is expressed that the American money is discounted, and the suggestion has been made to the secretary of war that any tradesman who refuses to accept United States money of any kind at 100 cents on the dollar should be removed from the territory over which the American flag floats.

The supposition is that the refusal to accept silver dollars is the result of the long use of silver in Mexico and South American countries which has never passed for more than half its face value.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J.
